Universal Health and Preparedness Review (UHPR)

G2H2 – Geneva Global Health Hub public briefing

Dr Stella Chungong, Director, Health Security Preparedness

20 January 2022

Genesis & Vision

- COVID-19 has shown the need for high-level **shared accountability, global solidarity** and sustainable long-term investments in emergency preparedness
- UHPR announced by Dr Tedros in November 2020
- Endorsed by the **IPPPR and IHR Review committee**. Several MS engaged and supportive of the scoping of the mechanism
- WHO to present a **detailed concept note** to WHA, for consideration by MS
- TAG established in September
- Voluntary pilots in interested countries

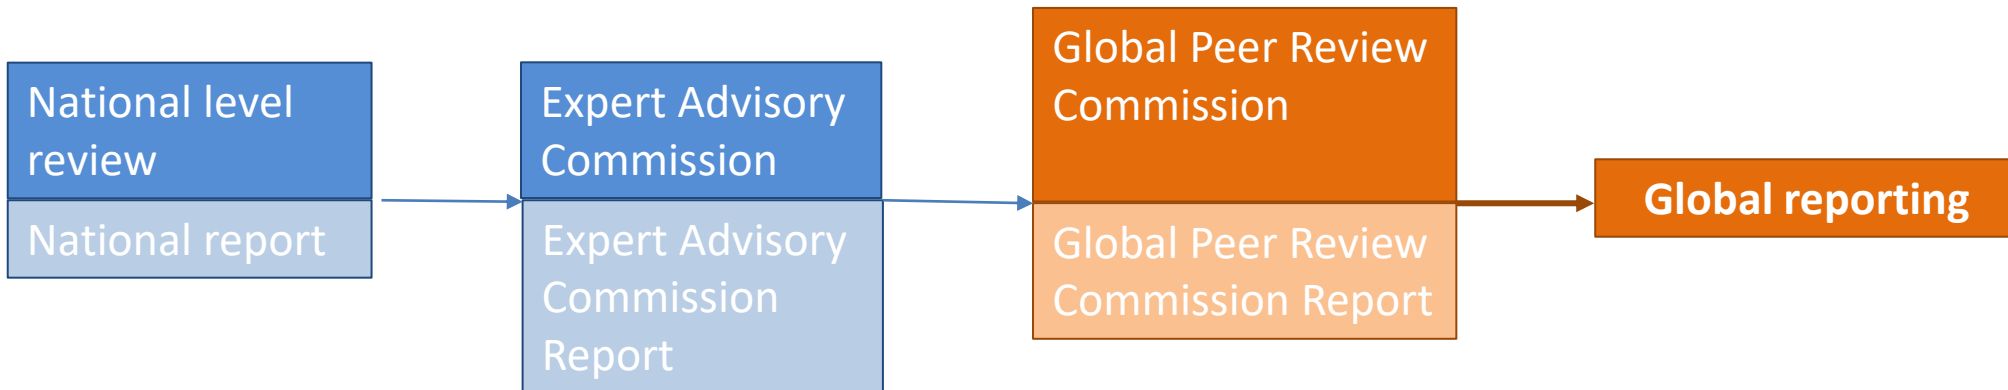

“We are calling it a Universal Health and Preparedness Review. Its purpose is to build mutual trust and accountability for health, by bringing nations together as neighbors to support a whole-of-government approach to strengthening national capacities for pandemic preparedness, universal health coverage and healthier populations.”

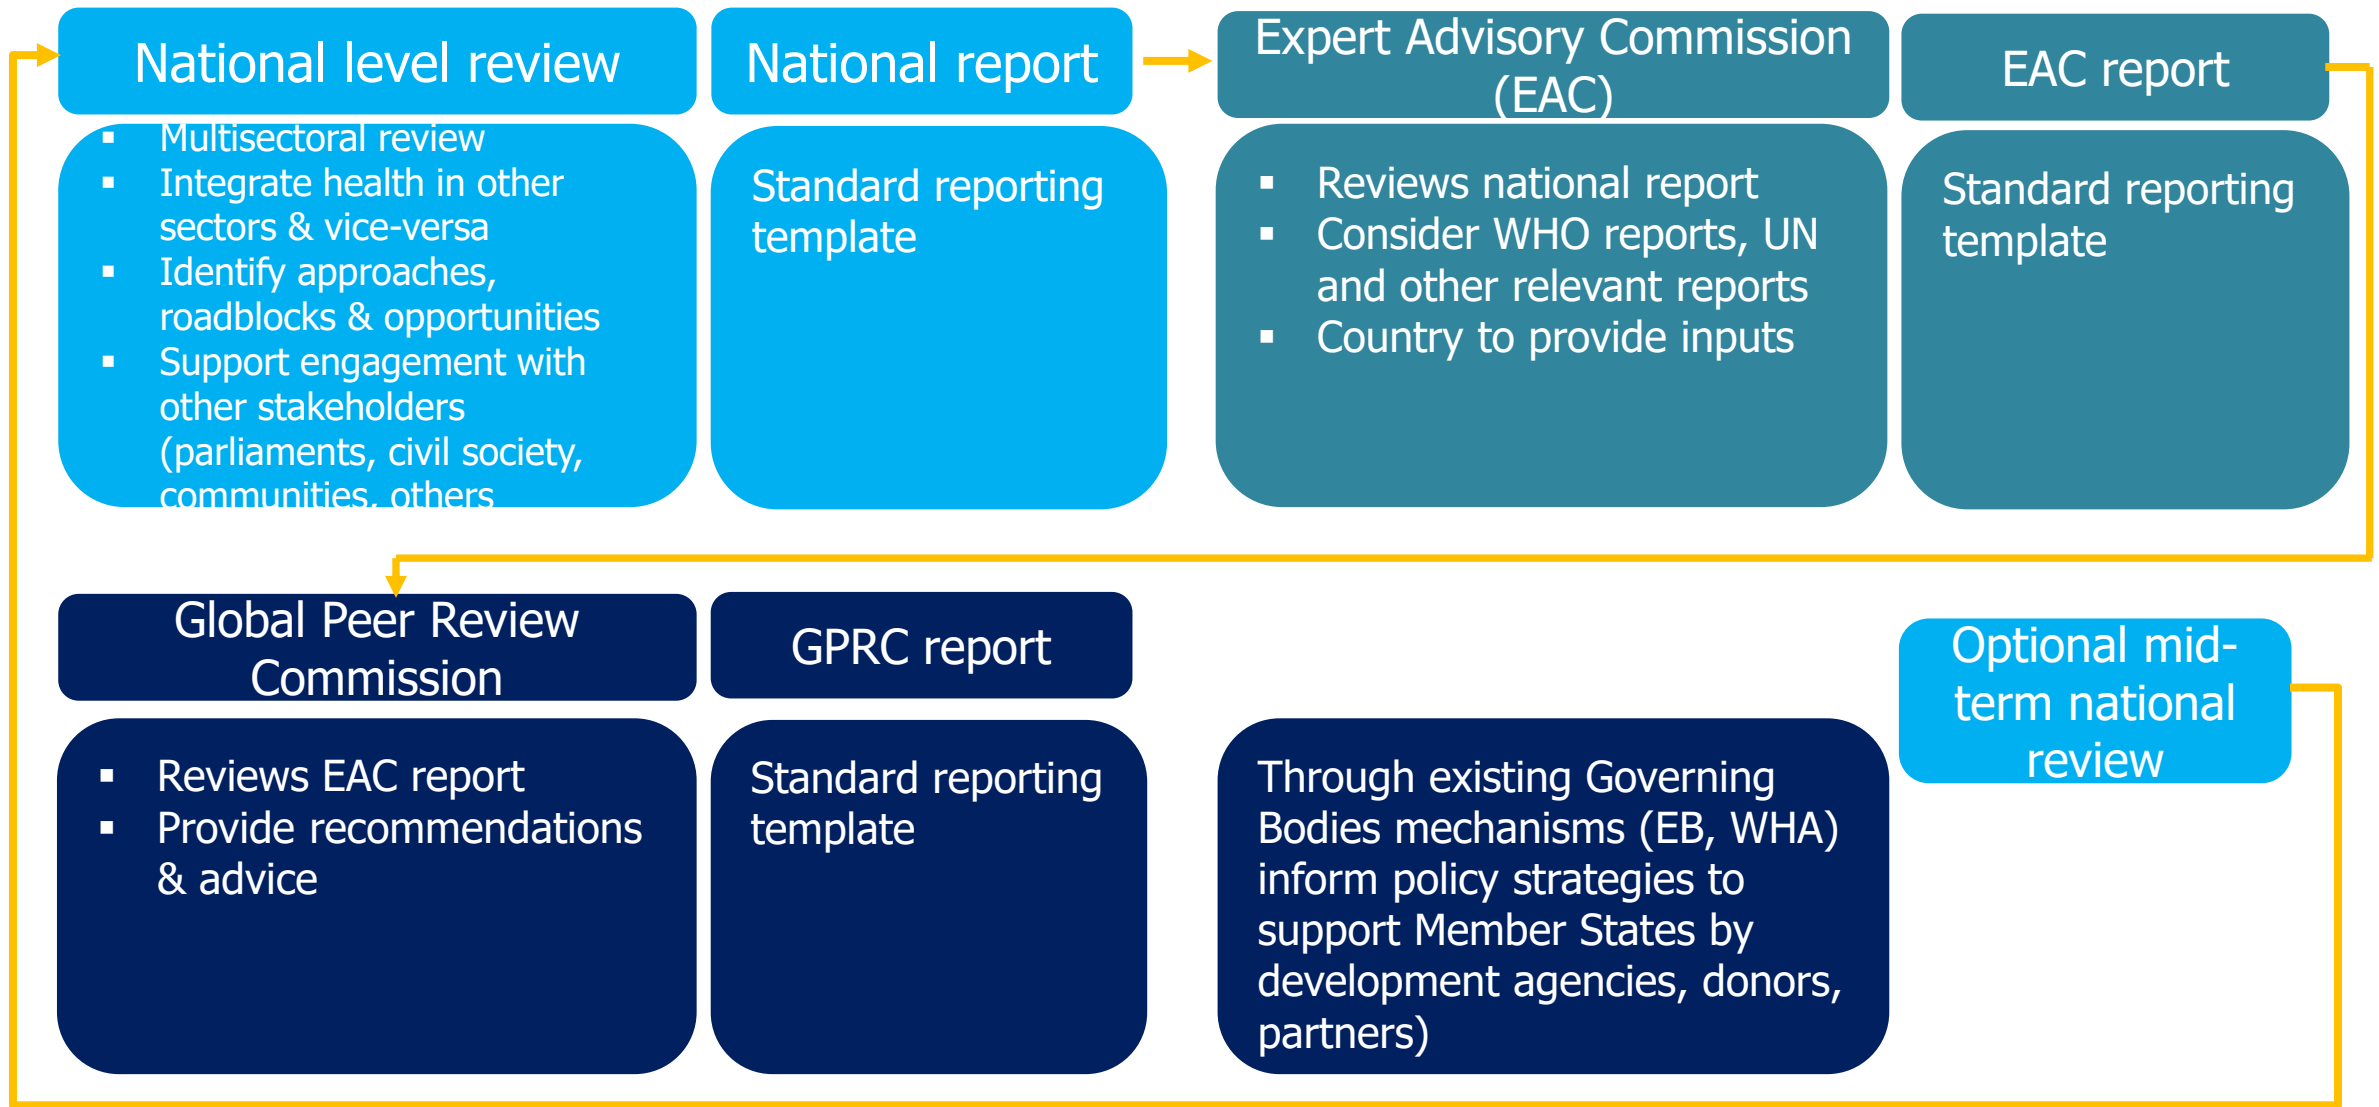

UHPR - objectives

A voluntary, member states-led peer-review mechanism:

- (1) To enhance **transparency** and understanding of a country's **preparedness capacities** to foster solidarity, peer-learning and peer-support;
- (2) To promote **all-of-government approaches** and encourage **cross-sectoral dialogue for preparedness** in countries;
- (3) To **accompany and encourage compliance with commitments** made under the IHR and related WHA resolutions through a **mutually accountable process**;
- (4) **Elevate considerations for preparedness beyond the health sector.**

Sequence of reviews

Building on the current assessments, data, tools and processes

- Based on IHR, JEE and SPAR reviews and indicators
- **A holistic view of preparedness** by interlocking emergency preparedness with the GPW13 Universal Health Coverage (UHC) and healthier populations billions
- **Broad consultative process** with participation of all relevant stakeholders
 - Beyond the health sector: whole of-the-government, at the highest levels
 - Beyond government: parliaments, including civil society, communities, private sector, others
- Aligns critical gaps identified and priorities with timely technical and financial support leading to predictability and sustainability

Universal Health and
Preparedness Review (UHPR)

Technical Considerations for Country Health
Emergency Preparedness and Recovery Review

UHDR: Scope, Categories and Indicators

Focus on health emergency preparedness and recovery, incorporating relevant indicators of universal health coverage and healthier populations

Governance, trust, stewardship & leadership

- International obligations linking to national preparedness
- Enabling environments
- Advocacy & oversight

Effective, dynamic & coordinated national & global systems

- Multisectoral engagement
- Resilient Health Systems & beyond
- Engaged citizens & communities
- Sub-regional, regional & global systems to support national & sub-national systems

Predictable & sustainable resourcing

- Investments in national systems
- Solidarity for global health security
- Sustained domestic & international investment in prevention & preparedness

CSO engagement as part of the UHPR

- WHO actively scoping the inclusion of CSOs during the pilot phase
- Several options for civil society engagement in the current model:
 - Consultations with CSOs during the national-level review
 - CSO representatives on the Expert Advisory Commission
- WHO open to seek CSO inputs on the current proposal
 - seek feedback on the concept note
 - seek feedback on the pilot process and documents

Next Steps & timelines

- Q4 2021 - Q2 2022 - Several country pilots to be held ahead of WHA75
- Ongoing
 - Continuous scoping and integration of lessons learnt from pilot exercises
 - Support to volunteer UHPR pilot countries
 - Technical Advisory Group meetings and recommendations
 - Briefing to Member States and partners
- May 2022: Present finding and update to the 75th World Health Assembly (pursuant to 74th WHA resolution 74.7)
